## Awaken Anti Aging Spray Tanning Solution

Awaken from Artesian Tan is a new fresh scented Anti-Aging formula which was developed to give you a flawless even fading Sunless Spray Tan with benefits yet to be realized in a Sunless Tanning product.

Artesian Tan is known as a producer of excellent Sunless Tanning Solutions, products that are both skin beneficial and provide impressive consistent results.

The current beauty market is filled with a plethora of Anti Aging products. Artesian Tan set out to create a Sunless Tanner, which along with positive performance, would utilize cutting edge technologies to promote youthful healthy skin repair.

Awaken is enriched with Vitamin E, Vitamin A, and Vitamin C Liposomes that condition, and assist in minimizing skin aging free radicals, which contribute to long-term skin damage.

CoQ10 paired with Green & White Tea extracts provide well documented skin soothing antioxidant benefits. Revive delivers advanced moisturizing and skin care benefits via Phospholipid Liposome technology, in addition to inclusion of natural Aloe Vera extracts, one of the best products you can use for skin repair. Revive also includes the newest powerful Anti-Aging complex Matrixyl 3000 (Pentapeptide-3) which has been hailed as "the new Botox" without the needle.

These Anti-Aging ingredient benefits reach optimal performance with daily applications, as studies have shown.

But through their inclusion in Awaken, you will feel the skin healing benefits with the very first application.

Awaken applies like silk, goes on smooth and your skin will feel like you have just had

a full body moisturizing treatment
