Special Needs of the Transgendered Girl

Professional Laser Hair Removal For Men, Women & the Transgendered.

Being transgendered requires many more special needs for both skin care and hair removal. Generally there is more of a need to remove a larger amount of body hair. Because so many times there is an abundance of hair it will take several treatments to see results. That is why it is best to start early and continue on a regular cycle. As a Hair Removal Specialist for since 1993, I have treated thousands of T-girls and understand the care each one needs. Attention to detail is one of my biggest concerns when helping T-girls.

Softer skin is also a desire for T-girls and we can help educate and treat our T-girl clients to a more smoother and silkier body. Facial and Body treatments to exfoliate and soften the skin are just a couple of ways to begin the path to smoother softer skin. I want you to be the prettiest T-girl possible.

Transgendered woman who will transition permanently with surgery have additional special considerations.

If you are considering surgery there are a few procedures you really need to consider because if you do not then the ramifications can be a lifelong challenge. Please watch the video about these concerns. If you have questions feel free to call 727 398-4187 for a No Obligation Consultation.

How Do I Know If Laser Hair Removal Is Right For Me?

Just contact my office for a FREE no-pressure consultation. I will be happy to discuss the procedure with you and answer any other questions you may have, such as:

How Does Laser Hair Removal Work?

What to expect when having laser hair removal treatments?

How Many Laser Hair Removal Treatments Do I Need?

How long Are The Laser Hair Removal Treatments?

How Safe Is Laser Hair Removal?

How Effective is Laser Hair Removal?

Are Laser Hair Removal Treatments Painful?

Are there any side effects from laser hair removal?

How should I prepare for laser hair removal treatments?

What is "upfront pricing"?
